

## PRESS RELEASE – July '08

### RE: **COOKIE EINSTEIN – MATH WIZ - DOGGONE SMART – MIND READER – PSYCHIC – BETTER THAN MAGIC!!**

What was just discovered today was the confirmation that Cookie Einstein's mathematical ability is **NO** act; Cookie is really a **MIND-READER**. She was blindfolded and then asked to bark the answer that *Penny Miller*, owner, was thinking. To summarize this concept, the color Red is 3 letters; Therefore = 3. Blue is 4 letters; Therefore = 4. Green is 5 letters; Therefore = 5 and Yellow is 6 letters; Therefore = 6. Someone picks a color card and *Penny* thinks of the color and *Cookie* will bark the corresponding number. Another mental intellectual question was the capacity to know what the answer is to a 5 part series of a number equation. For instance, if one thinks of a number and doubles it, divides it, multiplies it and adds, *Cookie* will bark the correct number. She also can recognize what bill is in an envelope by barking the corresponding number to the envelope.

*Cookie Einstein* has recently been an overnite success in Orange County, Ca appearing at the Mission Viejo library, Ladera Ranch PTA's, Women's Clubs, Senior Centers, Schools, Sabado Gigante, Nat'l TV show, filmed in Miami, DAYBREAK OC on Jun 24<sup>th</sup> (Channel 58 in Orange County & Channel 56 in the Los Angeles area, upcoming 4<sup>th</sup> of July extravaganza at Ladera Ranch, August issue of Orange Coast Magazine, Oct Dogue Vogue at Ladera Ranch, Fall Library Series, etc.

As you may have heard, *Cookie*, a rescue Cockapoo, performed feats of addition & subtraction with the assistance of owner, *Penny Miller*. At the Mission Viejo library presentation, *Cookie* would take math problems from the children & bark out the answer. She even calculates square roots & simple algebra.

If you view the following links, you will see her in a recent professional 2 ½ minute video by OC Register along with photos and newspaper article:

O.C. dog could be your tutor:

*Cookie Einstein*

What is so important to *Penny* is the formation of her non-profit corporation, *Animal Education thru Entertainment*, to create an awareness of the importance of adopting shelter animals. *Cookie* is just one animal that counts and it adds up to ADOPTION = the right answer. Save a Life!!

*Penny* thinks *Cookie's* I.Q. is higher than a 14 year old teenager. You be the judge!!

"This is a human trapped in a dog's fur," commented 91 year old Capistrano Beach resident *Sonja Roger*, ex Groomer. "Her mystifying talent leaves me breathless!"

She is a **MUST-SEE** to audiences young & old on National T.V.
